Electromagnetic Compatibility (EMC)
This product complies with the EMC Directive below. Note that in environments where electromagnetic interference exceeds EMC requirements defined in this directive, appropriate countermeasures are required to ensure the product performance.

Compatibilità elettromagnetica (CEM)
Questo prodotto è conforme alla direttiva CEM menzionata di seguito. Negli ambienti in cui le interferenze elettromagnetiche superano i requisiti CEM definiti nella suddetta direttiva, sono necessarie contromisure adeguate per garantire le prestazioni del prodotto.

Compatibilità eletromagnética (CEM)
Este producto cumple con la siguiente Directiva CEM. Tenga en cuenta los entornos en los que la interferencia electromagnética supera los requisitos de CEM definidos en esta directiva. Para asegurar el funcionamiento del producto se necesitan las contromedidas apropiadas.

Disposal of old electrical & electronic equipment (applicable in the European Union and other European countries with separate collection systems)
This symbol on the product or its packaging is based on the WEEE Directive (Directive on Waste Electrical and Electronic Equipment), which is a regulation in EU member countries. It indicates that this product shall not be treated as household waste.

Disposal of waste batteries and accumulators (applicable in the European Union and other European countries with separate collection systems)
Batteries and accumulators containing heavy metals such as mercury, lead, and cadmium may contaminate the environment if improperly discarded. When incinerated, certain chemicals are released into the air or concentrated in the ash residue from the combustion process. These may lead to health risks to humans and animals, and also damage the environment in general.
