# CONVENTIONS USED IN THIS MANUAL

---

## Safety Precautions

To ensure that instruments are operated correctly and safely, Mitutoyo manuals use various safety signs (Signal Words and Safety Alert Symbols) to identify and warn against hazards and potential accidents.

The following symbols indicate **general** warnings:

---

**DANGER**

Indicates an imminently hazardous situation which, if not avoided, will result in serious injury or death.

---

---

**WARNING**

Indicates a potentially hazardous situation which, if not avoided, could result in serious injury or death.

---

---

**CAUTION**

Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury or property damage.

---

The following signs indicate **specific** warnings or prohibited actions, or indicate a mandatory action;

---

Alerts the user to a specific hazardous situation. The given example means "To warn of electricity".

---

Prohibits a specific actions. The given example means "Do not touch".

---

Specifies a mandatory action. The given example means "Connect an earth to the ground".

---

---

# CONVENTIONS USED IN THIS MANUAL

---

## Types of Notes

The following types of **notes** are used in this manual to help the operator obtain reliable measurement data through correct instrument operation.

---

**IMPORTANT** An *important note* provides information essential to use the product. You cannot disregard this note.

An *important note* is a type of precaution, which if neglected could result in degraded performance or accuracy, or instrument malfunction/failure.

---

**NOTE** A *note* provides information to be especially noted or supplemented to use the product.

A *note* also supplies information to be noted for specific operations (e.g., memory limitation, instrument configuration, or details that apply to specific versions of a program).

---

**TIP** A *tip* is a type of note that helps the user to apply the operation method and procedures to his or her specific conditions.

A *tip* also indicates the reference destination if there is information to be referred to.

---

The specifications and information in this manual are subject to change without notice.

## Safety Precautions

---

- This user's manual provides important information on safe use of the Input Tool (IT-007R). Read the user's manual thoroughly before using this instrument. Especially, read carefully the "Precautions for Use" given at the beginning of this manual to fully understand them for better use of the instrument.  
Store this manual in a safe place for future reference as necessary while the instrument is in service.  
Mitutoyo has paid due attention to ensure the safe use of this instrument without any harm to the properties of the customers.
- Operate the instrument according to this manual.

# Precautions for Use

**IMPORTANT** To ensure safe operates with this instrument, check the following items prior to use.

The Input Tool operates with the power supplied from the PC connected. Depending on the manufacturers or models, PCs may generate significant interference noise. Be sure to check that the entire system operates normally before starting measurement. Check the system according to the following procedure.

- 1) Connect the Input tool to measuring tool and the PC (or equivalent), then turn the PC on.(It needs not to open the data input window.)
- 2) Zero set the measuring tool.(Refer to the respective User's Manual)
- 3) Open the measuring faces(contact point)to the point of workpiece insertion, then close them to the original zero point. Check to be sure that the measuring tool displays zero.
- 4) Repeat step 3 for 5 times. If the measuring tool repeats zero for each time, you may safely use the system for measurement.
- 5) In the event that the instrument malfunction should result, please contact Mitutoyo office.

## CAUTION

- If a malfunction is not solved with switches, remove the cables and connect them again.
- Wait more than one second before outputting the data with the "Input Tool for RS232C" after the completion of previous data output to avoid outputting an error data.

## WARRANTY

<b>Mitutoyo Corporation</b> 20-1,Sakado 1-chome,Takatsu-ku, Kawasaki-shi, Kanagawa 213-8533, Japan Phone(044)813-8230	
<b>ONE YEAR WARRANTY</b>	
Product Name	Code No.
Serial No.	Date Purchased
Mitutoyo Corporation conducts an own Quality management system based on the requirements of ISO 9001. This product conforms to the Mitutoyo inspection standard, and the standard (s) used for the calibration is /are traceable to the national standard (s).	
In the event that this product should fail within one (1)year from the original date of purchase through normal use conforming to the User's Manual provided with the product and Warning Label(s) on the product, we will repair or replace at our option, free of charge, upon its prepaid return to Mitutoyo with this WARRANTY card.	
※Purchaser is requested to fill the blank above and retain the warranty card at hand. <b>Return card only when requesting Warranty Service.</b>	
Quality Assurance Department T.Narumi Manager	
This warranty shall not apply if the product and consumables have been subject to fair wear and tear, abuse through misuse or improper use/handling/storage/maintenance/service/repair or through adaptation/modification by the original purchase or any third party without prior written consent of Mitutoyo, or as a result of damage by an actual disaster or circumstances beyond the control of Mitutoyo.	
<b>To obtain service under this warranty the product must be returned to the store/dealer you purchased from along with the warranty card.</b> Any postage, insurance, or shipping charges incurred in returning the product for service are the responsibility of the purchaser.	
※This warranty is not transferable and is only valid within the country of the original purchase.	
※You may have additional rights under the laws of country of original purchase that do not allow the exclusion of implied warranties or the exclusion or limitation of certain damages. If these laws apply, Mitutoyo's limitations and exclusions may not apply to you.	

---

## **Disclaimer**

---

IN NO EVENT WILL MITUTOYO, ITS AFFILIATED AND RELATED COMPANIES AND SUPPLIERS BE LIABLE FOR ANY LOST REVENUE, PROFIT, OR DATA, OR FOR SPECIAL, DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL, OR PUNITIVE DAMAGES HOWEVER CAUSED AND REGARDLESS OF THE THEORY OF LIABILITY ARISING OUT OF THE USE OF OR INABILITY TO USE OF THE SOFTWARE PRODUCT EVEN IF MITUTOYO, ITS AFFILIATED AND RELATED COMPANIES AND/OR SUPPLIERS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

If, notwithstanding the other provisions of this EULA, Mitutoyo, its affiliated and related companies and/or its suppliers are found to be liable to Customer for any damage or loss which arises out of or is in any way connected with use of the Software Product by Customer, in no event shall Mitutoyo's and/or its affiliated and related companies' and suppliers' liability to Customer, whether in contract, tort (including negligence), or otherwise, exceed the price paid by Customer for the Software Product only. The foregoing limitations shall apply even if the above-stated warranty fails of its essential purpose.

The foregoing limitations shall apply even if the above-stated warranty fails of its essential purpose.

BECAUSE SOME COUNTRIES, STATES OR JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR THE LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, IN SUCH COUNTRIES, STATES OR JURISDICTIONS, MITUTOYO'S, ITS AFFILIATED AND RELATED COMPANIES' AND SUPPLIERS' LIABILITY SHALL BE LIMITED TO THE EXTENT PERMITTED BY LAW.

---

## **Export Control Compliance**

---

This product falls into the Catch-All-Controlled Goods and/or Catch-All-Controlled Technologies (including Programs) under Category 16 of Appended Table 1 of Export Trade Control Order or under Category 16 of Appended Table of Foreign Exchange Control Order, based on Foreign Exchange and Foreign Trade Act of Japan.

If you intend re-export of the product from a country other than Japan, re-sale of the product in a country other than Japan, or re-providing of the technology (including Programs), you shall observe the regulations of your country.

Also, if an option is added or modified to add a function to this product, this product may fall under the category of List-Control Goods, List-Control Technology (including Programs) under Category 1 – 15 of Appended Table 1 of Export Trade Control Order or under Category 1 - 15 of Appended Table of Foreign Exchange Control Order, based on Foreign Exchange and Foreign Trade Act of Japan. In that case, if you intend re-export of the product from a country other than Japan, re-sale of the product in a country other than Japan, or re-providing of the technology (including Programs), you shall observe the regulations of your country. Please contact Mitutoyo in advance.

---

## Notes on Export to European Countries

---

When you intend exporting of this product to any of the European countries, it may be required to provide User's Manual(s) in English and Declaration of Conformity in English (in some cases, the official language of the country to be exported). For detailed information, please contact Mitutoyo in advance.

---

## Electromagnetic Compatibility(EMC)

---

This product complies with the EMC Directive and the UK Electromagnetic Compatibility Regulations; however, if this receives electromagnetic interference that exceeds these requirements, it will be out of warranty and require appropriate measures.

This product is an industrial product, and is not intended to be used in residential environment. If this product is used in residential environment, this product may cause electromagnetic interference with other instruments. In such a case, it is required to take appropriate measures for preventing such electromagnetic interference.

---

## Disposal of Old Electrical & Electronic Equipment (Applicable in the European Countries with Separate Collection Systems)

---

This symbol on the product or on its packaging is based on WEEE Directive (Directive on Waste Electrical and Electronic Equipment), and this symbol indicates that this product shall not be treated as household waste.

To reduce the environmental impact and minimize the volume of landfills, please cooperate in reuse and recycle.

For how to dispose of the product, please contact the agent where you purchased the product or a Mitutoyo sales office.

# 1

# Introduction

This chapter explains the Input Tool practical operating procedure

## 1.1 Input Tool for RS-232C

- Measuring instrument data can be inputted via the personal computer RS-232C connector.
- Automatic measurement and control can be performed because the personal computer can issue a data request.

### 1.1.1 Applicable models

PC/AT, PC/AT-compatible, and compatible machines (including notebook type) with an RS-232C interface.

### 1.1.2 Name and function of each part

- ① Digimatic (SPC) 10-pin connector  
: Connection with the Mitutoyo Digimatic (SPC) cable.  
Refer to section 2.2 Table 1 List of Digimatic (SPC) cables.
- ② Foot switch jack  
: For connection with the foot switch No.937179T (optional).
- ③ DATA button  
: Press to acquire data.
- ④ D-sub 9-pin female connector  
: connect to the RS-232C connector of the personal computer.

### 1.1.3 System connection method

**CAUTION** Depending on the personal computer used, a commercial conversion connector/cable may be required at (A).

Use straight-type conversion cable.

### 1.1.4 Data acquisition method

- Press the DATA button on the measuring instrument, Digimatic (SPC) cable, or Input Tool main unit so the personal computer can read the data. The data can also be acquired if the data request signal (a single, optional character) is sent from the personal computer.

\* Data format

#### 1, Data output

#### 2, Data format example

Display

0.1234

↓  
Output data

01A+000.1234

#### 3, If an error code is outputted

Output order

d1 d2 d3 d4

"91"(fixed)

↓ CR(carriage return)

Error code number

1: If data is not inputted

2: If input data is not formatted

## 4, Request format example

**CAUTION** d1~d13 are respectively represent one byte.

## \* Connector specifications

PinNo.	Symbol	Signal line name <sup>*1</sup>	Direction <sup>*2</sup>	Power <sup>*3</sup>
1	(N.C.)	(No connect)	(None)	
2	RXD	Received Data	Output	
3	TXD	Transmitted Data	Input	
4	DTR	Data Terminal Ready	Input	Input
5	GND	Ground	-	Ground
6	DSR	Data Set Ready	Output	
7	RTS	Request To Send	Input	Input
8	CTS	Clear To Send	Output	
9	(N.C.)	(No connect)	(None)	

\*1: The signal line name is from the perspective connected to a PC.

**CAUTION** \*2: The direction of the input and output is viewed from the Input Tool.

\*3: This signal line is used as a power supply of the Input Tool.

**THESE SIGNAL LINES MUST BE CONNECTED.**

## \* Communication specifications

Output signal level	:	Conforms to RS-232C standard
Communication method:	:	Full-duplex
Baud rate	:	2400 bps
Bit configuration	:	start bit 1 bit data bits 8 bits parity bit none stop bit 1 bit
X parameter	:	Disables control
S parameter	:	Disables input/output
Home position	:	DCE (modem specification)

- IMPORTANT**
- To ensure stable data input, assign a data input interval of approximately one second. A shorter interval may result in a data error. If an error results, an appropriate error handling procedure must be executed in a program.
  - A few seconds of power accumulation time is required before starting data input.

---

\* Sample program (press any key to acquire data, press "0" to terminate) with NEC's N88BASIC (MS-DOS version).

```
100 '<SAMPLE PROGRAM>' baud rate is fixed at 2400 bps.  
110 OPEN "COM1:N81NN" AS #1           ' opening the RS-232C  
communication line  
120 INPUT WAIT 30," 0 = END ";B$    ' 3-second power accumulation,  
display of operation method  
130 A$=INKEY$                      ' wait for key input  
140 WHILE A$<>"0"                 ' "0" for termination  
150  A$=""  
160  WHILE A$=""  
170    A$=INKEY$  
180    IF LOC(1)>0 THEN A$="1"  
190  WEND  
200  CNT=CNT+1                      ' count up starts if any key is  
pressed.  
210  PRINT #1,"1"                   ' sends a DATA request signal.  
220  INPUT #1,B$                  ' receives DATA.  
230  WHILE LEFT$(B$,3)<>"01A"    ' error handling  
240    B$=MID$(B$,2)              ' if the DATA button is pressed.  
250  WEND  
260  PRINT CNT,B$,VAL(MID$(B$,4,9)) ' screen display  
270 WEND  
280 CLOSE #1  
290 END                            ' end of program
```

---

### 1.1.5 PC software for importing data

---

**IMPORTANT** •One of the following ways can be chosen:

- 1.Creating software by yourself.
  - 2.Purchasing MITUTOYO software which can import the data stated in item 1.2.5.
  - 3.Choosing software on the market.
- 

\* For information about the applicable software for RS-232C communication, contact the following.

# 2

# Specifications

This chapter describes the specifications of each part of the Input Tool.

## 2.1 Specifications

Power supply	: Supplied from the personal computer via the RS-232C connector to accumulate power for control signals.
Data transfer speed	: Fixed at 2400 bps
Response speed	: 1 session/second
Compatible OS	: MS-DOS, Windows 3.1, Windows 95, Windows 98, Windows 98SE, Windows 2000, Windows Me, Windows XP, Windows Vista, Windows 7, Windows 8/8.1, Windows 10, Windows 11, Pocket PC 2002, Windows Mobile 2003, Windows Mobile 2003SE, Windows Mobile 5.0, Windows Mobile 6.0, Windows Mobile 6.1.
Connector standard	: D-sub 9-pin female (cable)
External dimensions	: W44.0mm × D77.0mm × H23.5mm (Main unit)
Cable length	: 0.9m
Mass	: 74g
Operation	: 0°C ~ 40°C
Storage temperature	: -10°C ~ 60°C
CE marking/UKCA marking	: EMC Directive/Electromagnetic Compatibility Regulations: EN IEC 61326-1 Immunity test requirement: Clause 6.2 Table 2 Emission limit: Class B RoHS Directive/The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations: EN IEC 63000

---

A display value on this product may flicker or disappear temporarily due to electromagnetic interference caused by electrostatic discharge. However, this product will return to normal after removing the interference.

External power supply models may not acquire correct measurement data due to electromagnetic interference acting on the AC or DC power line.

If this is the case, check the circumference of the power line and then perform measurement again.

External power supply models will be turned off automatically if a brownout occurs. However, this product will return to normal after the recovery from the low voltage.

For the EU Directive

Authorized representative and importer in the EU:  
Mitutoyo Europe GmbH  
Borsigstrasse 8-10, 41469 Neuss, Germany

For the UK Regulation

Authorized representative and importer in the UK:  
Mitutoyo (UK) Ltd.  
Joule Road, West Point Business Park, Andover, Hampshire SP10 3UX, UNITED KINGDOM
